Agents you Love 2: Hackathon

JUL 28

Tuesday, July 28
10:00 AM - 5:00 PM

📍

Frontier Tower 🧑🏻 ↗
San Francisco, CA

👤

Thank You for Joining
We hope you enjoyed the event!

About Event

Build AI agents people actually want to use.

Join us in **San Francisco on 28th July** for an in-person builder hackathon with **HydraDB, RocketRide, Thine, Guild.AI** and **Snyk**.

Join our discord to communicate: <https://discord.gg/t6mE9hCJzr>

This is a hackathon for building personal, useful, and lovable AI agents, agents that understand context, remember what matters, use tools, automate workflows, and help people do real things.

Report Event

AI

Not another wrapper demo.

Not another chatbot with a landing page.

Build something people would actually come back to.

Whether you are building a personal AI assistant, workflow automation agent, memory-powered copilot, agentic app, or something weird and beautiful, this is your playground.

What you'll build

Build AI agents and apps that can:

- understand personal context
- use memory across sessions
- automate real workflows
- connect to tools and APIs
- help users make decisions
- feel useful, personal, and delightful

The theme is simple:

Build agents people love.

This isn't just hacking. It's:

- meeting builders in person in San Francisco
- building fast with real AI infrastructure
- testing what memory and context unlock for agents
- creating useful, weird, beautiful agentic apps
- shipping live demos in front of other builders
- turning an idea into something people can actually use

Schedule

10:00 AM — Doors open + check-in

10:15 AM — Team formation

10:30 AM — Challenge + prize reveal

10:45 AM — Quick workshops

11:15 AM — Build sprint begins

12:30 PM — Break + networking

1:00 PM — Continue hacking

3:00 PM — Hacking stops

3:30 PM — Demos

4:45 PM — Winners announced + prizes

5:00 PM — Wrap

Prize Tracks

Best Overall Project

The strongest build across usefulness, execution, and demo.

Best Agent People Love

The most delightful, human-centered agent experience.

Best Use of Memory / Context

The best project using long-term context, retrieval, or personalization.

Best Workflow Agent

The best agent that completes real tasks across tools or steps.

Most Creative Build

The weirdest, boldest, most original idea that still works.

RocketRide Rewards:

Two ways to win with RocketRide at Build Fast. Launch Loud.

- **Best Use of RocketRide:** Build your project on **RocketRide Cloud** and deploy an AI pipeline without managing any infrastructure. The team that builds the most with RocketRide takes a prize worth \$1000.
- **Social Track:** A few simple steps, one winner. Post your project and tag RocketRide on LinkedIn, follow us on Instagram, and join our Discord during the event. Show off what you built with us and we'll pick one winner on the day!

New to RocketRide? Cloud is live: cloud.rocketride.ai 🚀

Venue

San Francisco

Exact location and check-in details will be shared with registered builders.

About our partners:

HydraDB

HydraDB is a high-performance database optimized to handle the complex, memory-intensive data structures of modern AI agents. We're thrilled to have their architecture powering our builders' data layers!

PipeShift

PipeShift delivers lightning-fast, scalable LLM inference and deployment pipelines, making it effortless to integrate powerful AI into any application. An incredible asset for teams racing against the clock!

Guild.ai

Guild.ai offers robust experiment tracking and automation for machine learning, helping developers evaluate and optimize their models with precision. Proud to have their toolkit elevating our hackers' workflows!

RocketRide

RocketRide is an **open-source, developer-native AI meta-harness**. Build, debug, and deploy production AI workflows **within your IDE**, and **RocketRide Cloud** is a managed engine, the same runtime is operated for you. It runs your AI workflows at a fraction of the cost on our proprietary model server, scales without the infra hassle, and lets your whole team build on shared pipelines together.

- 🎁 **Free credits:** RocketRide is giving away free credits for RocketRide Cloud, 100% off your first purchase with a promo code. Join the Discord to communicate and grab your code.
- 📖 **Step-by-step guide:** Setup, demos & how to build on RocketRide (Cloud + open-source): [Click here](#)
- 🚀 **Submit your project:** Head to the Discord and type /submit in any channel to submit your build. Need help? Ask our bot in #support questions about your project or the tools, just ask.

Linkup.so

Linkup.so equips developers with real-time web search and context APIs, seamlessly connecting AI agents to the data they need to thrive. The perfect foundational tool for building dynamic, memory-rich agents!

Insforge

Insforge provides streamlined developer infrastructure and tooling, eliminating setup friction so teams can focus entirely on shipping code. Grateful to have them

accelerating builds for the Memory Agents You Love hackathon!

Let's build something awesome together. 🖥️ ✨

Snyk

Snyk is a developer-first cybersecurity platform that helps teams build fast without compromising on security. As developers rely heavily on AI to write code at unprecedented speeds, Snyk continuously scans and secures application code, open-source dependencies, containers, and cloud environments right within the developer's workflow. For an AI hackathon, **it matters** because shipping code quickly with AI generators or autonomous agents also means shipping security risks at machine speed. Snyk acts as an intelligent security layer, catching vulnerabilities and automatically applying verified fixes in real time—allowing builders to ship ambitious AI projects safely and with complete confidence.

At this event you will learn:

- 1) Sign-up for free without a credit card, how to import your code, and configure your AI coding tool
- 2) Free AI Security Engineer Foundations Certificate

🚀 **Hackathon tip:** don't lose demo time to infrastructure

Judging goes faster when you can hand over a live link instead of screen-sharing localhost. **RocketRide Cloud** lets you deploy your pipeline straight from VS Code to a shareable, always-on endpoint, no last-minute rewrites before demo time.

It's free today with the promo code:

1. Log in at cloud.rocketride.ai (creates an account if you're new)
2. Enter the promo code
3. Done, start deploying

✨ **Additional tip:** If you use Rocketride cloud in your project, you'll earn bonus points, grab the opportunity to score 2x points! 🚀

Need help? We're around all day, on-site and in Discord (<https://discord.com/invite/PMXrtenMsY>).

Happy Hacking!! 🚀

Event Terms & Consent

By registering, you agree to the event terms and conditions. RocketRide reserves the right to refuse admission or remove attendees at its discretion, to keep things safe and enjoyable for everyone.

Photography and video recording will take place throughout the evening and may be used by RocketRide for future marketing, promotional, and community content. By registering, you also consent to receiving the RocketRide newsletter and updates about future events at the email address you provide. You can unsubscribe at any time via the link in any email.

Let's build something awesome together. 🖥️ ✨

Community Partner

AI Valley is a community for exceptional first-generation builders, founders, and creators. We host high-signal hackathons, workshops, and gatherings where ambitious people find collaborators, mentors, and real opportunities.

Congratulations to the RocketRide Best Use Case Winners!

Hi everyone,

We're excited to announce the winner of the **RocketRide Best Use Case Award** at our hackathon!

 **Winning Team: Passion**

For building the most outstanding use case with RocketRide, Team Passion takes home **2x Apple AirPods Pro (3rd Generation)**! 🎉

Congratulations to the entire team on this well-deserved achievement. We were impressed by your creativity, execution, and innovative use of RocketRide.

A huge thank you to everyone who participated and built incredible projects. We can't wait to see what you create next!

 **Last Chance to Win AirPods Pro for Your Team and 5,000\$ in cash prizes**

Hi everyone,

This is your **final reminder** to submit your project for the **RocketRide Best Use Case Challenge!**

 **Prize: Win AirPods Pro for your entire team (up to 4 team members).**

 **Submission Deadline: July 31, 7:30 PM (PT)**

Problem Statement:

https://docs.google.com/document/d/1RfcHnUv5jLcUh4HM6reWcHANv1jpZhBm6sCi_JHwH3Y/edit?usp=sharing

Submission Form: <https://forms.gle/j35VxeoL1d59As256>

 **Bonus Alert**

Our next hackathon is on **August 3rd** with **up to \$5,000 in cash prizes, monitors, and AirPods Pro. Apply early to reserve your spot!**

Memory Meets Motion: Hackathon

Mon, Aug 3

We can't wait to see your submissions. Good luck!

Don't miss out: AirPods Pro 3rd Gen & \$5K Cash up for grabs! 🚀

Hi everyone,

The clock is ticking, but the race isn't over yet! If you haven't submitted your project, you still have until **July 31st at 11:59 PM**.

Quick Checklist:

1. Problem Statement:

https://docs.google.com/document/d/1RfcHnUv5jLcUh4HM6reWcHANv1jpZhBm6sCi_JHwH3Y/edit?usp=sharing

2. Build the ultimate **RocketRide** use case to win **AirPods Pro (3rd Gen) upto 4**.
3. Keep an eye out for the submission form (releasing shortly).
4. Mark your calendar for **August 1st** when we reveal the winners!

Bonus Alert: Our next hackathon hits on **August 3rd** with up to **\$5,000 in cash prizes**.

Memory Meets Motion: Hackathon

Mon, Aug 3 · San Francisco

Apply early to lock in your spot!

Let's bring these projects over the finish line!

Essential Details for Tomorrow's Hackathon

Hi everyone,

We are incredibly excited to see you tomorrow! To ensure a smooth check-in and get you building as quickly as possible, please review the essential details below.

**Location & Entry**

- **Venue:** Frontier Tower (<https://maps.app.goo.gl/AhqcsjobBpg1T2ZBA>) — Please head directly to the **2nd floor**.
- **ID Required:** You **must** bring a valid physical ID with you to enter the building.

**Schedule**

- **Event Duration:** 9:00 AM – 6:30 PM
- **Doors Open / Check-in:** 9:00 AM

- **Arrival Deadline:** Please arrive no later than **9:55 AM**

Important Resources

- **Problem Statement:**
https://docs.google.com/document/d/1RfcHnUv5jLcUh4HM6reWcHANv1jpZhBm6sCi_JHwH3Y/edit?usp=sharing
- **WhatsApp Group:** <https://chat.whatsapp.com/I3af52IU0na468PzN9FUR0?s=cl&p=i&mlu=4>

Get some rest tonight, and we'll see you in the morning!

ACTION REQUIRED: Credits Giveaway & RSVP for Hackathon

Hi everyone,

By filling out the form you confirm your spot and, you'll receive:

- \$25 worth of Lovable/n8n credits • Exciting surprises for 3 lucky winners

Form Link: <https://forms.gle/X1eP4mZivNAUDskX9>

Join the Group for all the information and future events:

<https://chat.whatsapp.com/I3af52IU0na468PzN9FUR0?s=cl&p=i&mlu=4>

Future hackathons:

Memory meets motion - 03 August win up to \$5,000

Memory Meets Motion: Hackathon

Mon, Aug 3 · San Francisco

SF ENTERPRISE HACKATHON - 14 August win up to \$5,000

SF Enterprise HACKATHON

Fri, Aug 14 · San Francisco

Problem statement will be announced today at 8:00 PM.

Best of luck to everyone!
