- 04:40 PM – 05:00 PM: Closing Ceremony
- 05:00 PM – 05:30 PM: Networking Session

🔥 Limited seats are available; register now and hack the future with us!

About our partners

Neo4j

Neo4j powers the world's leading graph database, helping developers build smarter, connected applications. We're thrilled to have them as a knowledge partner for Hack With Bay 3.0!

RocketRide

RocketRide is an open-source, developer-native AI pipeline to build, debug, and deploy production AI workflows without leaving your IDE. RocketRide Cloud is the fully managed way to run those pipelines: zero setup, production-ready, always on.

- 🎁 RocketRide is giving away **free credits** for RocketRide Cloud, **100% off your first purchase** with a promo code. Join the Discord to communicate.
- 📖 Setup, demos & how to build on RocketRide (Cloud + open-source):
[Click here](#)

Butterbase

Butterbase makes it effortless to spin up and manage backends, so builders can skip the boilerplate and get straight to building. Happy to have them on board as a partner for Hack With Bay 3.0!

- 🎁 Butterbase is giving away a **\$200 cash prize** to the team with the best use of Butterbase in their project!

Daytona

Daytona provides instant, secure dev environments so builders can go from idea to code in seconds — perfect fuel for an 8-hour hackathon sprint.

Nebius

Nebius is a next-gen AI cloud platform offering high-performance GPU infrastructure for training and deploying AI at scale. Grateful to have their compute power behind our hackers!

Opsera

Opsera delivers an AI-driven DevOps orchestration platform that helps teams automate and accelerate software delivery. Proud to partner with them for Hack With Bay 3.0!

Event Terms & Consent

By registering, you agree to the event terms and conditions. RocketRide reserves the right to refuse admission or remove attendees at its discretion to ensure a safe and high-quality experience for all guests.

Please note that photography and video recording will take place throughout the evening and may be used by RocketRide for future marketing, promotional, and community content.

Let's build something awesome together. 🖥️✨

🚀 Hackathon tip: don't lose demo time to infrastructure

Judging goes faster when you can hand over a live link instead of screen-sharing localhost. **RocketRide Cloud** lets you deploy your pipeline straight from VS Code to a shareable, always-on endpoint, no last-minute rewrites before demo time.

It's free today with the promo code:

1. Log in at cloud.rocketride.ai (creates an account if you're new)

2. Enter the promo code
3. Done, start deploying

✨ **Additional tip:** If you use Rocketride cloud in your project, you'll earn bonus points, grab the opportunity to score 2x points! 🚀

Need help? We're around all day, on-site and in Discord (<https://discord.com/invite/PMXrtenMsY>).

Happy Hacking!! 🚀
