About Event

Memory Meets Motion: Hackathon in SF

Join us for **Memory Meets Motion**, an electrifying hackathon bringing together the brightest minds in tech, creativity, and AI, all under one roof in San Francisco!

Whether you're a seasoned hacker, a budding AI engineer, a design wizard, or an idea machine, this is your chance to build, learn, and connect with the most passionate problem-solvers in the Bay Area. We're challenging you to bridge

Mr SK

Report Event

AI

the gap between long-term AI context (Memory) and autonomous agentic execution (Motion).

Event Details

- **When:** 09:30 AM – 7:00 PM, 03rd August 2026
- **Where:** San Francisco, CA (Venue TBA)
- **Theme:** Agentic Workflows & Stateful AI

What to Expect

- **High-energy hacking sessions** focused on next-gen AI applications.
- **Challenges** that push you to build highly contextual, action-oriented products.
- **Swag, snacks & networking** with top developers.
- **Expert mentorship** from our incredible partners.
- **Exciting prizes** for top teams.
- **A chance to demo** your project to industry leaders.

Agenda

- **10:00 AM – 11:00 AM:** Opening & Presentations
- **11:00 AM – 12:00 PM:** Hackathon Begins
- **12:00 PM – 01:00 PM:** Lunch Break 🍕 🥤
- **01:00 PM – 03:30 PM:** Hacking Continues
- **03:30 PM:** Submission Deadline
- **04:00 PM – 04:40 PM:** Final Presentations (Top 5 Teams)
- **04:40 PM – 05:00 PM:** Closing Ceremony
- **05:00 PM – 05:30 PM:** Networking Session

Limited seats are available; register now and hack the future with us!

About Our Partners

RocketRide

RocketRide is an open-source, developer-native AI meta-harness. Build, debug, and deploy production AI workflows right inside your IDE. And with RocketRide Cloud, the same runtime is managed for you: powered by a high-performance C++ runtime. For professional developers, engineering leaders, and founders building AI applications for real customers at production scale. Build shared pipelines, deploy on managed infrastructure, and run high-performance workloads with built-in scalability and cost-efficient model serving.

- 📁 **Free credits:** We're giving away free credits for RocketRide Cloud, 100% off your first purchase with a promo code. Join the Discord to grab yours.
- 📖 **Step-by-step guide:** Setup, demos, and how to build on RocketRide (Cloud + open-source): [click here](#)
- 🚀 **Submit your project:** Head to the Discord and type `/submit` in any channel. Need help? Just ask our bot in `#support`, whether it's about your project or the tools.

FalkorDB

FalkorDB is a low-latency, GenAI-native Graph Database that enables developers to capture and query complex relationships with ease. We're excited to have their technology providing the knowledge foundation for our builders!

Guild.ai

Guild.ai offers robust experiment tracking and automation for machine learning, helping developers evaluate and optimize their models with precision. Proud to have their toolkit elevating our hackers' workflows for the Memory Meets Motion hackathon!

LaserData

LaserData is building the real-time data infrastructure for AI-native systems. Powered by Apache Iggy, our platform helps developers build event-driven applications and AI agents with durable streams, memory, context, state, and workflows—all through simple SDKs and managed cloud infrastructure. Whether you're building traditional streaming applications or autonomous agents, LaserData provides the foundation to ship faster and scale confidently.

Linkup

Linkup equips developers with real-time web search and context APIs, seamlessly connecting AI agents to the data they need to thrive. The perfect foundational tool for building dynamic, memory-rich agents!

Let's build something awesome together. 🖥️ ✨

RocketRide Rewards:

Two ways to win with RocketRide at Build Fast. Launch Loud.

- **Best Use of RocketRide:** Build your project on RocketRide Cloud and deploy an AI pipeline without managing any infrastructure. The team that builds the most with RocketRide takes a prize worth \$1000 (Apple AirPods Pro 3).
- **Social Track:** A few simple steps, one winner. Post your project and tag RocketRide on LinkedIn, follow us on Instagram, and join our Discord during the event. Show off what you built with us and we'll pick one winner to receive a \$250 prize on the day!

New to RocketRide? Cloud is live: cloud.rocketride.ai 🚀

Snyk

Snyk is a developer-first cybersecurity platform that helps teams build fast without compromising on security. As developers rely heavily on AI to write code at unprecedented speeds, Snyk continuously scans and secures application code, open-source dependencies, containers, and cloud environments right within the developer's workflow. For an AI hackathon, **it matters** because shipping code quickly with AI generators or autonomous agents also means shipping security risks at machine speed. Snyk acts as an intelligent security layer, catching vulnerabilities and automatically applying verified fixes in real time—allowing builders to ship ambitious AI projects safely and with complete confidence.

At this event you will learn:

- 1) Sign-up for free without a credit card, how to import your code, and configure your AI coding tool
- 2) Free AI Security Engineer Foundations Certificate

Event Terms & Consent

By registering, you agree to the event terms and conditions. RocketRide reserves the right to refuse admission or remove attendees at its discretion, to keep things safe and enjoyable for everyone.

Photography and video recording will take place throughout the evening and may be used by RocketRide for future marketing, promotional, and community content. By registering, you also consent to receiving the RocketRide newsletter and updates about future events at the email you provide. You can unsubscribe anytime via the link in any email.

Social Media Track Results + Apply for Our AWS Hackathon!

Hi everyone,

We have our winner for the RocketRide Social Media Track and wins a Samsung Curved Moniro! 🎉

The winner was selected based on the overall engagement on their post, including:

- Likes
- Comments
- Reposts

Winning Post:

<https://lnkd.in/p/gRNeeqNM>

Post Performance:

- 150+ likes
- 45+ comments
- 45+ reposts

To keep the competition fair, we excluded self-engagement (participants liking, commenting on, or reposting their own posts) from the final count.

Congratulations to the winner, and thank you to everyone who participated and helped spread the word about RocketRide!

Applications are now open for our upcoming AWS Hackathon for Enterprise Developers.

SF Enterprise HACKATHON

Fri, Aug 14 · San Francisco

Spots are limited, so apply soon!

 Still Want to Win a Samsung Monitor?

The hackathon isn't over yet! 🚀

Post about today's hackathon on **LinkedIn** or **X (Twitter)** Tag **RocketRide** and **other partners** for a chance to win a **Samsung Monitor**.

 How to win:

- Share your experience from today's hackathon on LinkedIn or X.
- Be creative photos, project demos, key takeaways, or your favorite moments are all welcome.
- The post with the **highest engagement** (likes, comments, shares, reposts, etc.) by **August 5, 9:00 PM (PDT)** will win the Samsung Monitor.

We'll share a submission form shortly where you can submit the link to your post.

Good luck, and we can't wait to see your stories!

If this is for Discord or WhatsApp, I can also make it shorter and more hype.
