automation, this is your chance to create something real, learn from experienced builders, and

showcase your work to the wider RocketRide community. [Register Now](#) [About Our Partners](#) RocketRide is

an open-source, developer-native AI meta-harness. Build, debug, and deploy production AI workflows without leaving your IDE. And with RocketRide Cloud, teams can offload the complexity of AI infrastructure and focus on building solutions, with cost-efficient execution through our proprietary model server, shared pipelines for collaboration, higher performance, and seamless scalability. • 🎁 Free credits: We're giving away free credits for RocketRide Cloud, 100% off your first purchase with a promo code. Join the Discord to grab yours. • 📖 Step-by-step guide: Setup, demos, and how to build on RocketRide (Cloud + open-source). • 🚀 Submit your project: Post it in the #showcase channel on Discord. Make sure to include your project's GitHub link and all your .pipe files (import them from RocketRide Cloud). Need help? Just ask our bot in #support, whether it's about your project or the tools. Event Terms & Consent By registering, you agree to the event terms and conditions. RocketRide reserves the right to refuse admission or remove attendees at its discretion to keep things safe and enjoyable for everyone. Photography and video recording will take place throughout the evening and may be used by RocketRide for future marketing, promotional, and community content. By registering, you also consent to receiving the RocketRide newsletter and updates about future events at the email address you provide. You can unsubscribe anytime via the link in any email.

RocketRide Buildathon is a high-energy hackathon where student developers, designers, and innovators come together to turn ideas into shippable products. Build with modern AI tools, collaborate with your

peers, and pitch your project to mentors and industry leaders, all in a single sprint. Whether you're building AI agents, developer tools, full-stack apps, or intelligent automation, this is your chance to create something real, learn from experienced builders, and showcase your work to the wider RocketRide community.

👉 About Our Partners RocketRide is an open-source, developer-native AI meta-harness. Build, debug, and deploy production AI workflows right inside your IDE. And with RocketRide Cloud, teams can offload the complexity of AI infrastructure and focus on building solutions, with cost-efficient execution through our proprietary model server, shared pipelines for collaboration, higher performance, and seamless scalability.

- 🎁 Free credits: We're giving away free credits for RocketRide Cloud, 100% off your first purchase with a promo code. Join the Discord to grab yours.
- 📖 Step-by-step guide: Setup, demos, and how to build on RocketRide (Cloud + open-source).
- 🚀 Submit your project: Post it in the #showcase channel on Discord. Make sure to include your project's GitHub link and all your .pipe files (import them from RocketRide Cloud). Need help? Just ask our bot in #support, whether it's about your project or the tools.

Event Terms & Consent By registering, you agree to the event terms and conditions. RocketRide reserves the right to refuse admission or remove attendees at its discretion to keep things safe and enjoyable for everyone.

Photography and video recording will take place throughout the evening and may be used by RocketRide for future marketing, promotional, and community content. By registering, you also consent to receiving the RocketRide newsletter and updates about future events at the email address you provide. You can unsubscribe anytime via the link in any email.

RULES & GUIDELINES

- 1 Participants must bring their own laptops
- 2 All projects must be original and developed during the hackathon period.
- 3 Pre-existing projects are not permitted. However, participants may use open-source libraries, frameworks, and APIs with proper attribution.

⚠️ Registration is closed

- 4 All team members must complete the registration process before the deadline.

Projects must align with one or more of the hackathon themes.

- 6 Any form of plagiarism will result in immediate disqualification.
- 7 Only shortlisted teams will be invited to the offline Grand Finale.
- 8 All finalists must bring their own laptops, chargers, and any accessories required for their project demonstration.
- 9 Internet connectivity for basic browsing will be provided (subject to availability), but teams should be prepared to demonstrate their project offline if required.
- 10 The decision of the judging panel will be final and binding.
- 11 Evaluation will be based on innovation, technical implementation, usability, scalability, presentation, and overall impact.
